Complaint to the Beaufort County Board of Elections

I would like to make a complaint concerning certain poll workers at the upcoming November 3, 2015 election for municipal officers in Belhaven, N.C. at the John A. Wilkinson polling station.

3 of the appointed poll workers have taken actions that show complete bias in the upcoming election. 2 of the poll workers, Diane Lambeth and Karen Fisher, have been campaigning door to door for my opponent and the opponents of certain council candidates in this election cycle throughout town. Mrs. Elizabeth Eldridge was a witness to the door to door campaigning of Karen Fisher at her house October 18th. Diane Lambeth was observed, on October 4 and 11th, 2015, campaigning door to door for my opponent by Karen Wahab and Marjie Stark. Lambeth is also the girlfriend of Bill Iller who is my opponent's Campaign Manager and Treasurer. Jimmy Southerland has been engaged in public shows of support for my opponent and has reached out to at least one newspaper offering negative information about myself and the current town administration, if kept secret as the source, and this has happened during this election cycle. Delma Blinson of the County Compass and Hood Richardson are witnesses to this act. These 3 people will not conduct a fair and impartial voting station and I would respectfully ask for their removal from working the polls. Candidates for office in Beaufort County should be given fair and open elections by fair poll workers. This is a nonpartisan election and unbiased poll workers are most important due to poll watchers not being allowed. If you have any questions for me, please just give me a call.

Addresses of the parties

Diane Lambeth
